PROFILE

Motivated Frontend Developer with hands-on experience building responsive web interfaces using React and JavaScript. Comfortable consuming and integrating APIs, manipulating the DOM, and translating requirements into clean UI components. Seeking an entry-level Frontend Developer role to contribute to production-ready applications, continue building practical experience, and grow within a collaborative engineering team.

EXPERIENCE

- ICT Instructor (NYSC), Obison Collection Enterprise - Computer Training Center**01/2025 – 01/2026
 - Trained participants aged 16–23 in computer fundamentals and application usage.
 - Delivered practical lessons on Word, PowerPoint, and Excel, emphasizing layout, clarity, and presentation.
 - Explained structured workflows and logical thinking relevant to frontend development.
- Backend Developer Intern (Frontend Collaboration Focus), Nigerian Development Foundation**10/2024 – 07/2025
 - Worked closely with frontend developers to integrate RESTful APIs into user interfaces.
 - Tested and consumed API endpoints to ensure correct data rendering.
 - Supported UI requirements by validating request and response flows.
 - Gained practical experience working in a collaborative development environment.

EDUCATION

B.Sc. Biochemistry & Molecular Biology, Obafemi Awolowo University2018 – 2024

FRONTEND SKILLS

React.js functional components, hooks	<div></div>	JavaScript ES6+	<div></div>
